

MODEL 711 * CONSOLE MODEL TELEVISION SOUND AND VISION RECEIVER FOR A.C. MAINS

INCORPORATING 10-inch EMISCOPE TUBE

Incorporating exclusive Marconiphone improvements in connection with television frequency amplification, this fine console gives the very best picture values and particularly good tone gradations. The high sensitivity of the receiver ensures perfect results anywhere within the recognised service area. The cabinet is beautifully finished in contrasting shades of walnut, with the screen face sloping slightly backwards to ensure the correct viewing angle.
