

# MODEL 710 \* TABLE GRAND TELEVISION SOUND AND VISION RECEIVER FOR A.C. MAINS

INCORPORATING 10-inch EMISCOPE TUBE

Remarkably good picture definition and very high sensitivity are the features of this exceptionally attractive table model television receiver. It has only two controls on the front of the cabinet and is, in consequence, particularly simple to use. The cabinet is finished in a contrasting combination of light straight-grained and dark-figured walnut and a table to match (type 37), specially designed to ensure the correct viewing height, is also available — price 2½ guineas.
