

RCA VICTOR *invites you to see ...*

TWO NEW KINDS OF TELEVISION

LEAN, CLEAN AND MIRROR-SHARP
black-and-white

double value
COMPATIBLE BIG COLOR

RCA VICTOR *re-shapes television to fit anywhere, go anywhere!* Introducing the
NEW "LEAN AND CLEAN" LOOK IN TV

A brand new kind of TV styling by RCA Victor's master craftsmen! "Lean and Clean" TV that dramatically saves space, actually *helps* you decorate—it's streamlined to fit close to the wall! See the bright new look in RCA Victor portables, table models, lowboys, consolettes and consoles — even the first "Custom-Corner TV" in RCA Victor history. Never before such *variety* and *values!*

NEW outside—and NEW inside! RCA VICTOR offers Black-and-White TV's finest features

"HIGH-SHARP-AND-EASY" TUNING WITH NEW "ONE-TOUCH" CONTROL

RCA Victor offers you the easiest way ever to tune TV! Major controls are high on the cabinet, seldom-used knobs within easy reach. Most new RCA Victor Black-and-White models have a "One-Touch" switch that lets you turn set on or off without changing your previously selected volume setting: RCA Victor Series 21RT820 and 21RT842 feature *power* tuning and remote control.

NEW "MIRROR-SHARP" PICTURE

Sharp, clear, *real* . . . RCA Victor brings you Black-and-White TV's finest picture. New picture-balance circuits give new depth and dimension, *mirror-sharp* realism. A new RCA-designed circuit separates sound and picture signal at just the right instant to give you *all* the picture the station sends. Look into a crystal-clear mirror—that's how real RCA Victor's new improved picture is!

TV'S MIGHTIEST POWER PLANTS

Wherever you live—city, suburb, remote fringe area—there's an all-new RCA Victor chassis to bring you superb television reception. All Portable chassis have been re-designed for extra dependability and handy portability. RCA Victor *Super* models feature the most powerful and compact chassis ever offered in *Super* sets. And for the finest reception in *any* area where a TV signal is received, be sure to select RCA Victor Television Deluxe with the "Magic Monitor" Deluxe chassis.

"GOOD NEIGHBOR" PERFORMANCE

Every RCA Victor TV chassis is designed to give top-quality performance without disturbing reception on nearby sets. An important benefit to "good neighbors" and homes where there is more than one TV.

NEW RCA SILVERAMA ALUMINIZED PICTURE TUBE

All but three RCA Victor Black-and-White models feature the new RCA *Silverama* 110-degree deflection tube. All models give you a brilliant, *mirror-sharp* picture. These new tubes are shorter from front to back, give the largest picture possible for tube size, greatly reduce cabinet depth to create the new "Lean and Clean" *slender* look—a great new RCA Victor step forward in Black-and-White TV styling. (8PT701, 14PT802 and 14PD805 have 90-degree tubes.)

TV'S FINEST SOUND

The finest Sound Systems in TV! RCA Victor's new advances in FM sound circuit design make possible richer, fuller, more realistic "Balanced Fidelity" Sound—even if you live in a difficult reception area.

Improved 3-Speaker "Panoramic Sound," in many Deluxe models, gives you a scientific mounting of *three* speakers, floods even the largest room with TV's most life-like sound.

FAST, ACCURATE UHF TUNING

Most new RCA Victor Black-and-White and BIG COLOR TV models are available with fast, accurate UHF-VHF tuning at nominal extra cost. The all-new UHF Tuner covers 70 channels in only 2½ seconds. It has a two-speed action—high speed for channel coverage, slow speed for fine tuning. You can switch from VHF to UHF or from UHF to VHF—and back again without disturbing the fine tuning adjustment.

RCA VICTOR FACTORY SERVICE CONTRACT

Fine service for the finest in television! Only RCA Victor TV owners can buy an RCA Victor Factory Service Contract for expert service and installation by RCA's own technicians. Branches in most TV areas.

and now meet the new kind of TV. . .

Small "Personal" or big family-size Portable TV, RCA Victor is your best buy. Perfect, too, as an easy-to-carry second set!

NEW RCA VICTOR "FLIGHT-LINE" PORTABLES...

THE ULTIMATE IN TELEVISION ENTERTAINMENT...

RCA VICTOR BIG COLOR TV

COMPATIBLE . . . like owning two sets in one!

Thrill to color programs in brilliant "living-color," regular shows in sharp, clear black-and-white. This is RCA Victor Compatible Color TV—and you can have *both* for little more than the price of one! See drama, comedy, "Spectaculars"—many of TV's finest programs are now in color!

"COLOR-QUICK" VHF AND UHF TUNING

Fast and easy tuning . . . just a few turns of the dials and your picture's tuned in! Just two simple controls for color—in addition to the regular television controls: one for color intensity, one for hue. BIG COLOR TV's "High-Sharp-and-Easy" tuning lets you tune standing up, see picture and channel number at the same time. High-speed UHF-VHF tuning available on all models at nominal extra cost.

RCA TRI-COLOR PICTURE TUBE

The 3-gun Tri-Color picture tube, pioneered and developed by RCA, achieves clear, life-like color—brings you life-size pictures of thrilling realism *in color or in black-and-white!*

TWO SUPERB SOUND SYSTEMS

"Balanced Fidelity" Sound captures all the rich "highs" and resonant "lows" that give music richness and realism. Six BIG COLOR models feature 3-Speaker "Panoramic Sound" that floods even the largest room with life-like tones.

Symbol of RCA Victor Compatible Color TV

THE ALDRICH

Color Special Model 21CS781
